Education in present time has suffered huge set-back. Some school owners and some parents treat educational institution as money minting machines.

Literacy and Education is material component of human life as it develops its moral and intellectual components. Neither educational institutions are mints nor children are money minting machines.

In a welfare society economic growth is sine-qua-non to its development. But economic development has to be subservient to moral and

intellectual development of a society, as otherwise, a society of 'Humans' will become jungle of 'wild animals'.

Education is not commerce. Neither educational institutions are Commercial establishments.

Spending huge amounts, hard earned money of parents, on the components highlighted herein above can never be essential to the development of a child.

Educational institution functions as non-profitable entities. Educational institutions is set-up for the benefit of large section of society and in law may not be personal property of the persons who set-up the same.

The record produced and the justification given by the School management for fixation and regulation of fee structure of the School was examined. The same was considered in accordance with norms set out in various judgments and fixed by statute. On due consideration of the entire conspectus of the school record and' acknowledged parameters and settled norms for regulating the fee structure of the school, material produced by the School management, income-expenses, income and expenditure, of the School and after considering all other relevant factors which govern the subject, the Committee finds it just and proper to regulate the fee structure of the School as under:
